MEMORANDUM FOR Integrated Concept Team (ICT) Charter Members

SUBJECT: ICT Charter for Designer Obscurants

1. Purpose: To develop initial operational concept and requirements documentation for a Designer Obscurant.

2. Background: In a combat situation our ability to freely use our obscurant capability is hindered by the effects that it has on our own systems. To maintain information dominance of the threat it is important that we develop obscurants that defeat the threat capabilities but at the same time have little to no impact on our own capabilities.

3. Scope: This ICT will explore existing technologies to identify a low cost yet effective force survivability tool. The ICT report will focus on force survivability requirements, associated materiel, and technology solutions.

4. Objectives: To identify and test a proof of concept for total force survivability through the use of Designer Obscurants.

5. Deliverables:

- a. Concept statement for Designer Obscurants.
- b. Action Plan.
- c. Analysis of Alternatives
- d. Operational Requirements Documentation.
- e. Analysis of Virtual and Live assessment of Designer Obscurants.

6. Schedule: Final report is due to Cmdt, USACMLS NLT 1 Mar. 01 for approval.

7. Organization: This ICT will consist of a chairman, a team leader, and members from the organizations listed below. The participating and supporting organizations will designate members. Membership is by name. Once ICT members are designated by the
